

Education

- Schooling - Shree Ripumardini Sainik Secondary School
- High School (+2) - St. Xavier's Secondary School
- Bachelors (Computer Engineering) - Thapathali Campus (Present)

Technical Tools

- Languages: C/C++, C#, Python, MATLAB
- Web: React.js, Next.js, Svelte, Tailwind CSS, Node.js, Mongo, Postgres, Render, Vercel, Flask*
- Software: Blender, Unity, Unreal Engine, Figma, Wireshark
- Others: Linux, Git/Github, Premake/CMake, Bash, OpenGL, WebDriver, Arduino

Experience

1. 3D Artist & Developer (Team Shireto) April 2023 - 2025
 - DCC & Game dev: 3D assets, rendering, animation, game (Blender, Unity, Figma)
 - Web: maintenance, construction (Wordpress, React.js, Tailwind CSS, Figma)
2. Game content creator (Hero University) April - May 2024
 - Environment design, blueprint, PCG, sequencer, megascan (Unreal Engine, Blender)
3. Full-stack Developer (National Innovation Centre) Dec. 2025 - Present
 - Vending machine web app (React.js, Node.js, MongoDB)

Projects

1. Web development
 - Teamshireto: Club website prototype, [link](#) (React.js, Tailwind CSS)
 - EIMS: POS web app for events attending sellers, [link](#) (Full-stack - Next.js, pg, mongodb)
 - Yathartha: Website for techfest promotion & events information, [link](#) (Frontend - React.js)
 - Catchup: DBMS project cricket portal for Nepal, [link](#) (Full-stack - React.js, Node.js, pg, Render)
 - DoTLMViz: LLM (GPT-2 small) Visualization web app, [link](#) (Full-stake - Svelte, Flask*)
 - Helpmeout: Portal record keeping of resources (personal usages), [link](#) (Next.js)
2. Graphics Programming
 - MViz: College OOP project mathematical equation visualization, [link](#) (C/C++, OpenGL)
 - FuimGR: College Graphics project showcasing basic Renderer, [link](#) (C/C++, OpenGL)
3. Others
 - CoAS: Voting and feedback recording program in exhibition from visitors, [link](#) (Unity)
 - JSQ: Interactive app for joint school quiz program, [link1](#), [link2](#) (HTML, CSS, JS, Unity)
 - Automation: Assistance for stock market data scrape/autofill/organize..., [link](#) (Python, Selenium)
 - Misc: hosted portal for utility operations (eg: pdf, images, etc), [link](#) (Python, Streamlit)
